In order to minimise the credit risk of loan receivables, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue loan receivables, if any. In addition, the Group reviews the recoverable amount of each individual loan receivable at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the Directors of the Company consider that the Group's loan receivables credit risk is significantly reduced.

The Group does not provide any guarantees which would expose the Group to credit risk.

## **Liquidity Risk**

The Group is subject to the statutory liquidity requirements as prescribed by the regulators. The Group has a monitoring system to ensure that it maintains adequate liquid capital to fund its business commitments and to comply with the Securities and Futures (Financial Resources) Rules (Cap.571N).

The Group has maintained stand-by banking facilities to meet any contingency in its operations. The Board believes that the Group's working capital is adequate to meet its long and short term financial obligations.

## **Foreign Exchange Risk**

Certain assets of the Group's business are denominated in foreign currencies which expose the Group to foreign currency risk. The Group currently does not have a foreign currency hedging policy. However, the management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.
